

## PAU Scientists organized village-level training program at village Khosla Kotla, District Moga, Punjab

A village-level training program was successfully organized jointly by All India Network Project on Vertebrate Pest management and Krishi Vigyan Kendra (KVK), Moga at village Khosla Kotla, District Moga, Punjab. About 35 farmers participated in the training cum demonstration of rodent pest management in direct-seeded and transplanted rice, and rice nurseries. Training on rodent biology, behavior and demonstration on the preparation and application of rodenticide bait was imparted to the farmers.
